

WHAT IS CLAIMED IS:

A food utensil comprising:

a hollow body having an inner wall forming an interior and an outer wall, an open first end and a closed second end, and, a plurality of grooves each longitudinally extending from the first end to a corresponding plurality of points approaching the second end; and a plurality of blades extending across said interior.

2. The utensil of claim 1 further comprising a blade rack slidably engaged with said outer wall for attachment of said plurality of blades wherein each of said plurality of blades correspondingly extends through one of said plurality of grooves.

3. The utensil of claim 1 further comprising a base fixed to the closed second end.

4. The utensil of claim 1 wherein said plurality of blades comprise a plurality of wires.

5. The utensil of claim 2 wherein said plurality of blades comprises a plurality of wires wrapped about said blade rack.

6. The utensil of claim 1 further comprising a food receptacle removably attached to said first open end for holding a food product.

7. The utensil of claim 6 further comprising at least one hole extending through said food receptacle and at least one corresponding prong extending through said at least one hole for holding said food product.

Sub A2

8.

The utensil of claim 1 wherein each of said plurality of grooves with respect to another equidistantly terminates between said first and second ends.

9.

5

The utensil of claim 1 wherein said plurality of blades is fixed to said inner wall.

10.

The utensil of claim 1 wherein said plurality of blades is fixed to said open first end.

Sub B1

11.

A food utensil comprising:

a hollow body having an inner wall forming an interior and an outer wall, an open first end and a closed second end, and, a plurality of grooves each longitudinally extending from the first end to a corresponding plurality of points approaching the second end;

a plurality of blades extending across said interior; and

the utensil of claim 1 further comprising a food receptacle removably attached to said first open end for holding a food product.
